3 Project Info

3.1 Project Title:

Adding GUI to the manga downloader

3.2 Project Abstract:

A GUI support written using Gtk will be added to the manga downloader for point and click support instead of running commands by hand from the terminal.

3.3 Proposal Detailed Description/Timeline:

Since, I was previously aquainted with Qt so I would be learning Gtk and would be solving minor issues parallely. And till Feb 01 2017 I may be able to provide a GUI support.
